OVERWATCH X

The training pathway

Overwatch X performs best in the hands of people who know it well. Our training pathway takes each user to the level their role requires, from first deployment to fully integrated surveillance detection operations, and keeps their skills current as the system develops.

LEVEL 1 · 1 DAY

Operator

Deploy, configure and operate independently.

LEVEL 2 · 3 DAYS

Advanced User

Deployment strategy, risk assessment and incident management.

LEVEL 3 · 5 DAYS

Surveillance Detection

Hostile surveillance detection with Overwatch X, ending in a full mission exercise.

ANNUAL · ½ DAY

Refresher

New firmware, functions and best practice.

TRAINER · 3 DAYS

Train-the-Trainer

In-house training capability.

CONTROL ROOM · ½ DAY

Command Platform

Central alert handling and target updates.

COURSE	DURATION	MAX.	CERTIFICATION	DELIVERY
User Introduction & Operator Course	1 day	8	Certificate of Attendance	Onsite at your premises
Advanced User Course	3 days	6	Certified Overwatch X Operator	Onsite at your premises
Surveillance Detection & Counter-Surveillance Course using Overwatch X	5 days	4	Certified Overwatch X Surveillance Detection Operator (SDO)	Onsite at your premises
Refresher Course	½ day	6	Certificate of Attendance	Onsite at your premises
Train-the-Trainer Course	3 days	3	Overwatch X Trainer (subject to assessment)	Onsite at your premises
Command Platform Operator Course	½ day	6	Certificate of Attendance	Onsite or remote

HOW TRAINING IS DELIVERED

Courses are delivered by Overwatch-appointed instructors at your own premises, with your own operational context in mind. Other locations can be agreed in writing.

WHAT WE NEED FROM YOU

- Suitable training facilities are available.
- Reliable internet connectivity is available.
- A designated technical point of contact is present during the training.

BOOKING

Contact Overwatch directly for availability and a proposal.

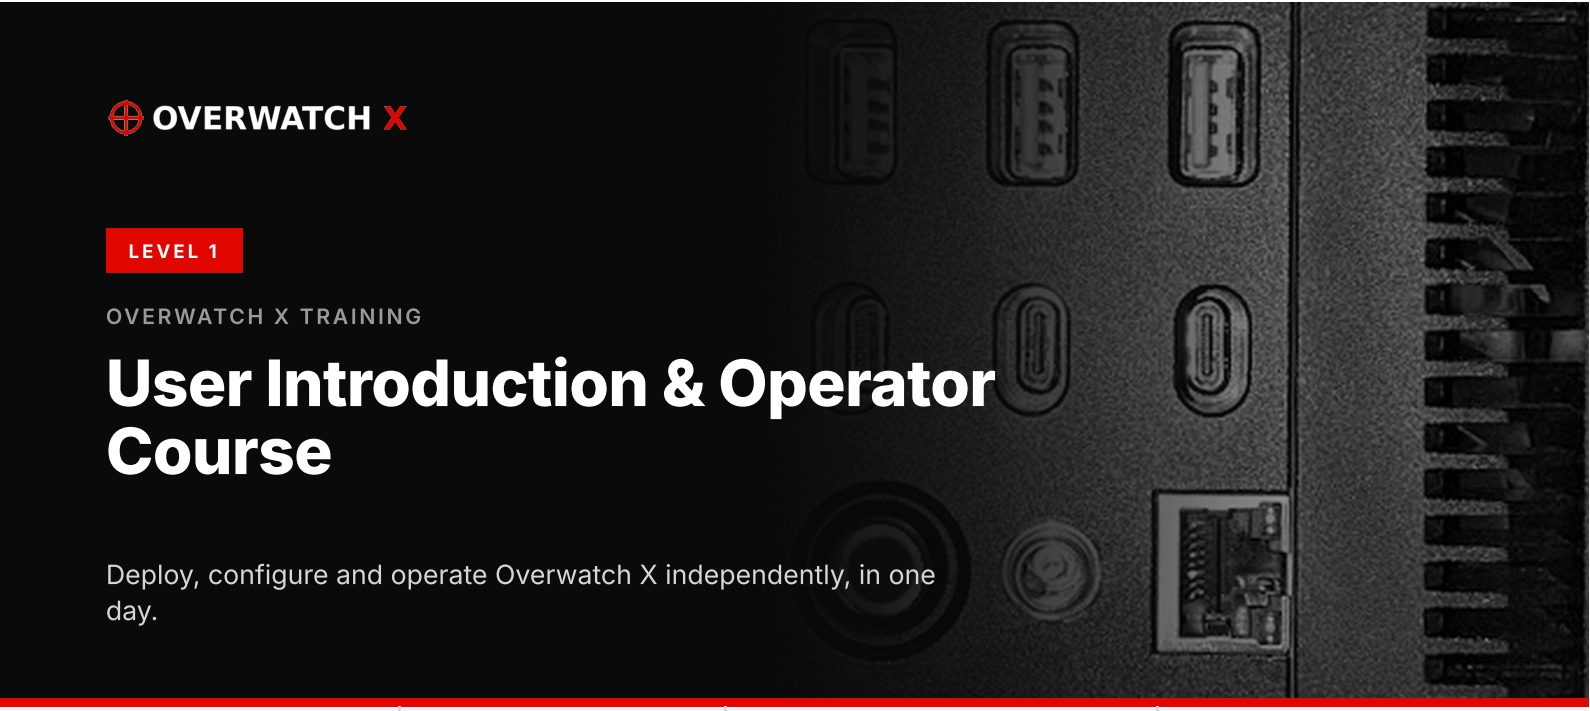
OVERWATCH X



LEVEL 1

OVERWATCH X TRAINING

User Introduction & Operator Course

Deploy, configure and operate Overwatch X independently, in one day.

DURATION	GROUP SIZE	CERTIFICATION	DELIVERY
1 day max. 8 training hours	**Max. 8 participants**	**Certificate of Attendance**	**Onsite at your premises**

TRAINING OBJECTIVE

Participants will acquire the knowledge and practical skills required to independently deploy, configure and operate Overwatch X systems in a Proof of Concept (POC) or operational environment.

IDEAL FOR

- New Overwatch X operators
- Teams starting a Proof of Concept
- Security staff deploying units in the field

CERTIFICATION

Certificate of Attendance

COURSE CONTENT

MODULE 1
Introduction to Overwatch X

- System overview
- Operational applications
- Capabilities and limitations

MODULE 2
Hardware Familiarisation

- Components and accessories
- Physical setup
- Different adapters
- Power supply
- Battery management

MODULE 3
System Configuration

- Initial setup DirectLAN
- Software configuration
- SIM installation & WiFi dongle
- Network configuration
- Software environment

MODULE 4
Operational Use

- Command & Control navigation
- Live monitoring
- Alert management
- Event logging

MODULE 5
Practical Exercises

- Hands-on system setup
- Operational deployment
- Functional testing exercises
- Live monitoring & alerts

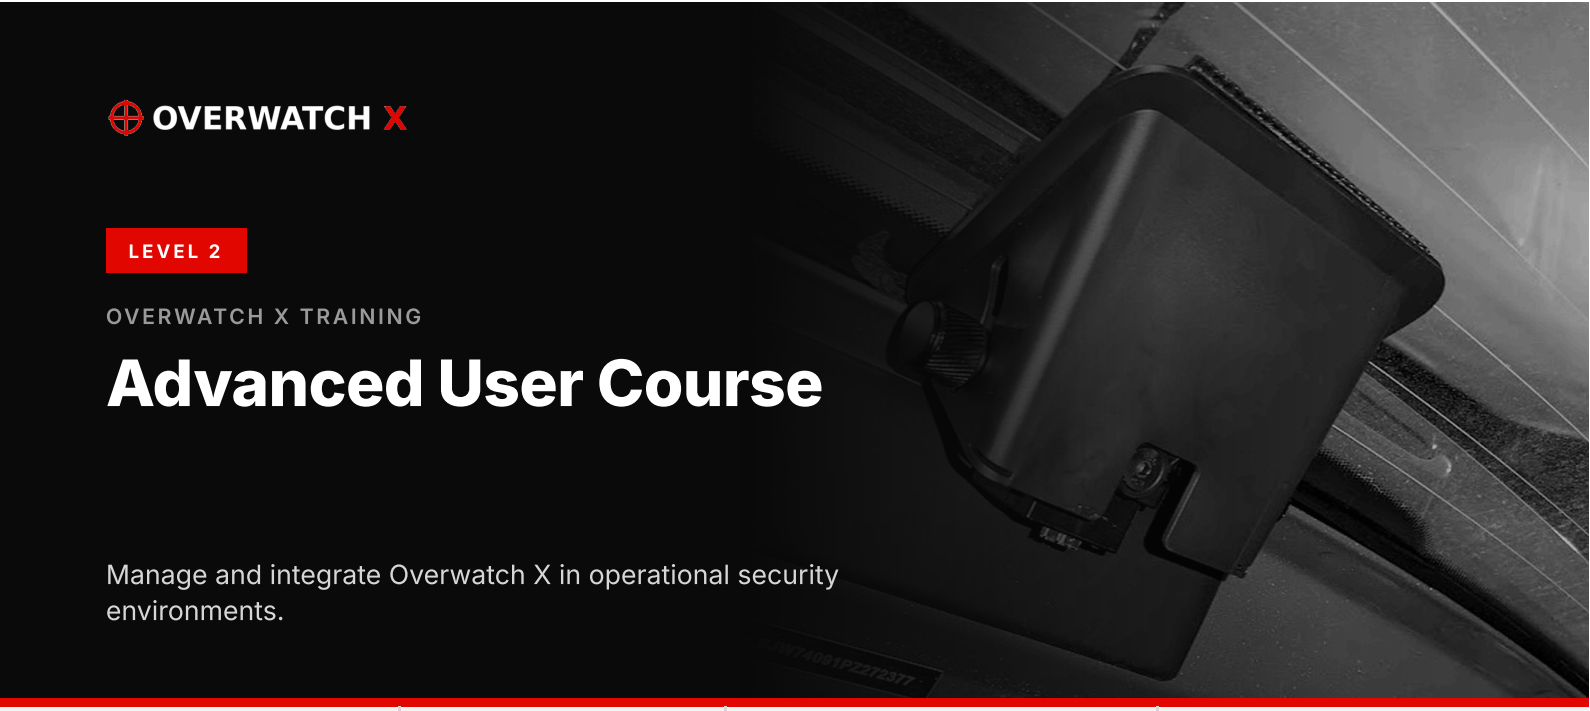
Operator	**Advanced**	**Surveillance Detection**	**Refresher**	**Train-the-Trainer**	**Command Platform**

OVERWATCH X



LEVEL 2

OVERWATCH X TRAINING

Advanced User Course

Manage and integrate Overwatch X in operational security environments.

DURATION	GROUP SIZE	CERTIFICATION	DELIVERY
3 days	Max. 6 participants	Certified Overwatch X Operator	Onsite at your premises

TRAINING OBJECTIVE

Participants will acquire the knowledge and practical skills required to deploy, configure and operate Overwatch X systems and will be capable of managing and integrating Overwatch X capabilities in operational security environments.

IDEAL FOR

- Experienced operators and team leaders
- Security managers integrating Overwatch X into operations
- Teams running multi-unit deployments

CERTIFICATION

Certified Overwatch X Operator

PROGRAMME

DAY 1

Technology & System Configuration

- System overview
- Operational applications
- Technical limitations
- Components and accessories
- Physical setup
- Initial setup DirectLAN
- Software configuration
- SIM installation & WiFi dongle
- Network configuration
- Software environment
- Command & Control navigation
- Detection methodologies
- Live monitoring
- Alert management
- Event logging

DAY 2

Operational Deployment

- Risk assessment
- Site surveys
- Deployment strategies
- Functional testing exercises
- Live monitoring & alerts
- Performance optimisation

DAY 3

Incident Management & Practical Exercises

- Operational deployment
- Scenario-based exercises
- Alert validation
- Reporting techniques
- Final evaluation

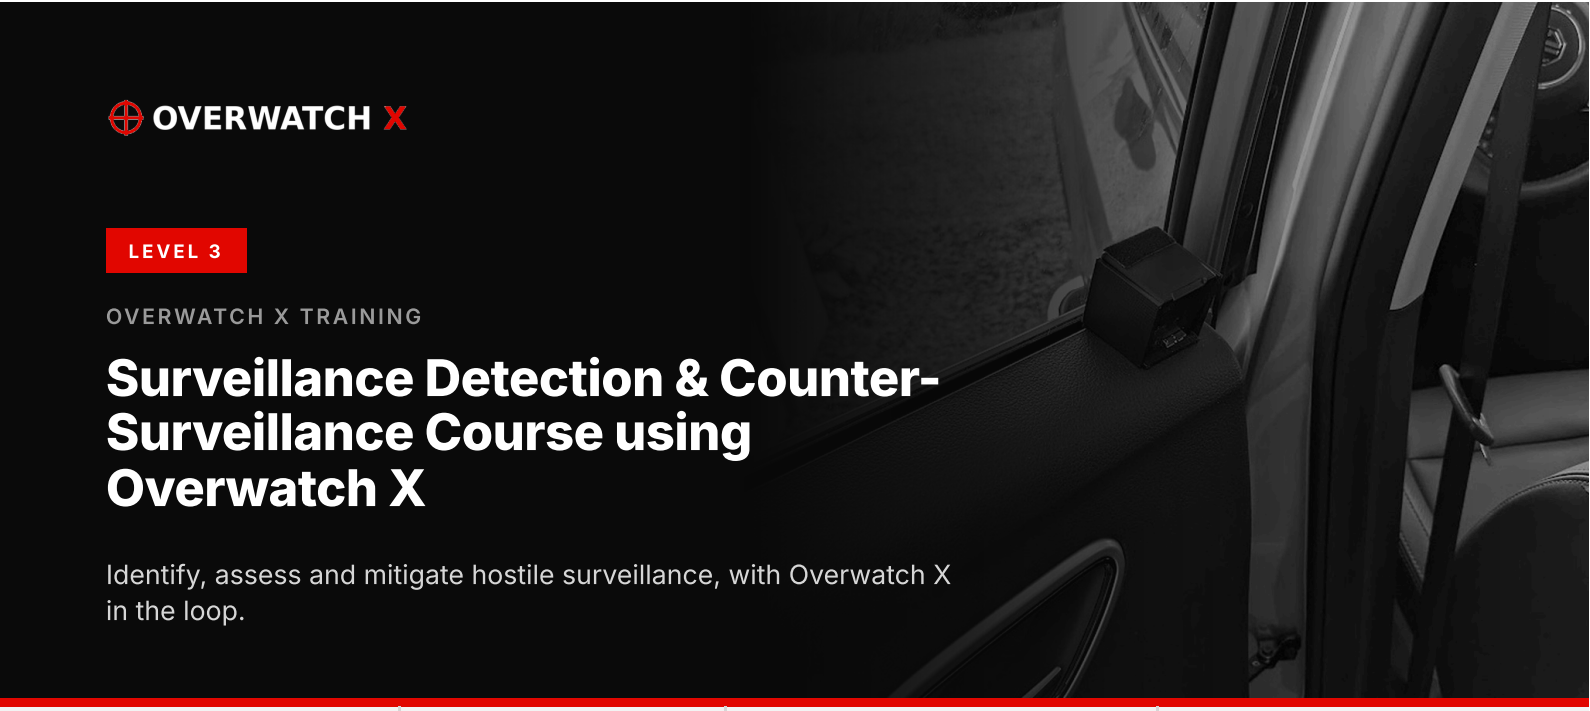
Operator	Advanced	Surveillance Detection	Refresher	Train-the-Trainer	Command Platform

OVERWATCH X



LEVEL 3

OVERWATCH X TRAINING

Surveillance Detection & Counter-Surveillance Course using Overwatch X

Identify, assess and mitigate hostile surveillance, with Overwatch X in the loop.

DURATION	GROUP SIZE	CERTIFICATION	DELIVERY
5 days	Max. 4 participants	Certified Overwatch X Surveillance Detection Operator (SDO)	Onsite at your premises

TRAINING OBJECTIVE

Participants will acquire the knowledge and practical skills required to deploy, configure and operate Overwatch X systems and will be capable of managing and integrating Overwatch X capabilities in operational security environments. Participants will learn to identify, assess and mitigate hostile surveillance activities while effectively incorporating Overwatch X technology into surveillance detection operations.

IDEAL FOR

- Close and executive protection teams
- Surveillance detection teams
- Security professionals protecting high-risk people, sites and routes

CERTIFICATION

Certified Overwatch X Surveillance Detection Operator (SDO)

PROGRAMME

DAY 1
Technology & System Configuration

- System overview
- Operational applications
- Technical limitations
- Components and accessories
- Physical setup
- Initial setup DirectLAN
- Software configuration
- SIM installation & WiFi dongle
- Network configuration
- Software environment
- Command & Control navigation
- Detection methodologies
- Live monitoring
- Alert management

DAY 2
Operational Deployment

- Risk assessment
- Site surveys
- Deployment strategies
- Functional testing exercises
- Live monitoring & alerts
- Performance optimisation

DAY 3
Incident Management & Practical Exercises

- Operational deployment
- Scenario-based exercises
- Threat identification
- Behavioural indicators
- Detection techniques
- Alert validation
- Reporting techniques

DAY 4
Overwatch X Operational Integration

- Threat assessments
- Pattern-of-life analysis
- Vulnerability identification
- Route planning
- Technology deployment
- Data interpretation

DAY 5
Full Mission Exercise

- Operational planning
- Field deployment
- Live practical exercise
- Debriefing and lessons learned
- Individual assessment

OVERWATCH X

ANNUAL

OVERWATCH X TRAINING

Refresher Course

Stay current with new firmware, new functionality and best practice.

DURATION	GROUP SIZE	CERTIFICATION	DELIVERY
½ day max. 4 training hours	Max. 6 participants	Certificate of Attendance	Onsite at your premises

TRAINING OBJECTIVE

An annual half-day update that keeps trained operators current as Overwatch X evolves: new firmware, new functionality and the best practices learned across deployments.

IDEAL FOR

- Operators who completed an Overwatch X course
- Teams after a firmware or feature update
- Organisations that want an annual skills check

CERTIFICATION

Certificate of Attendance

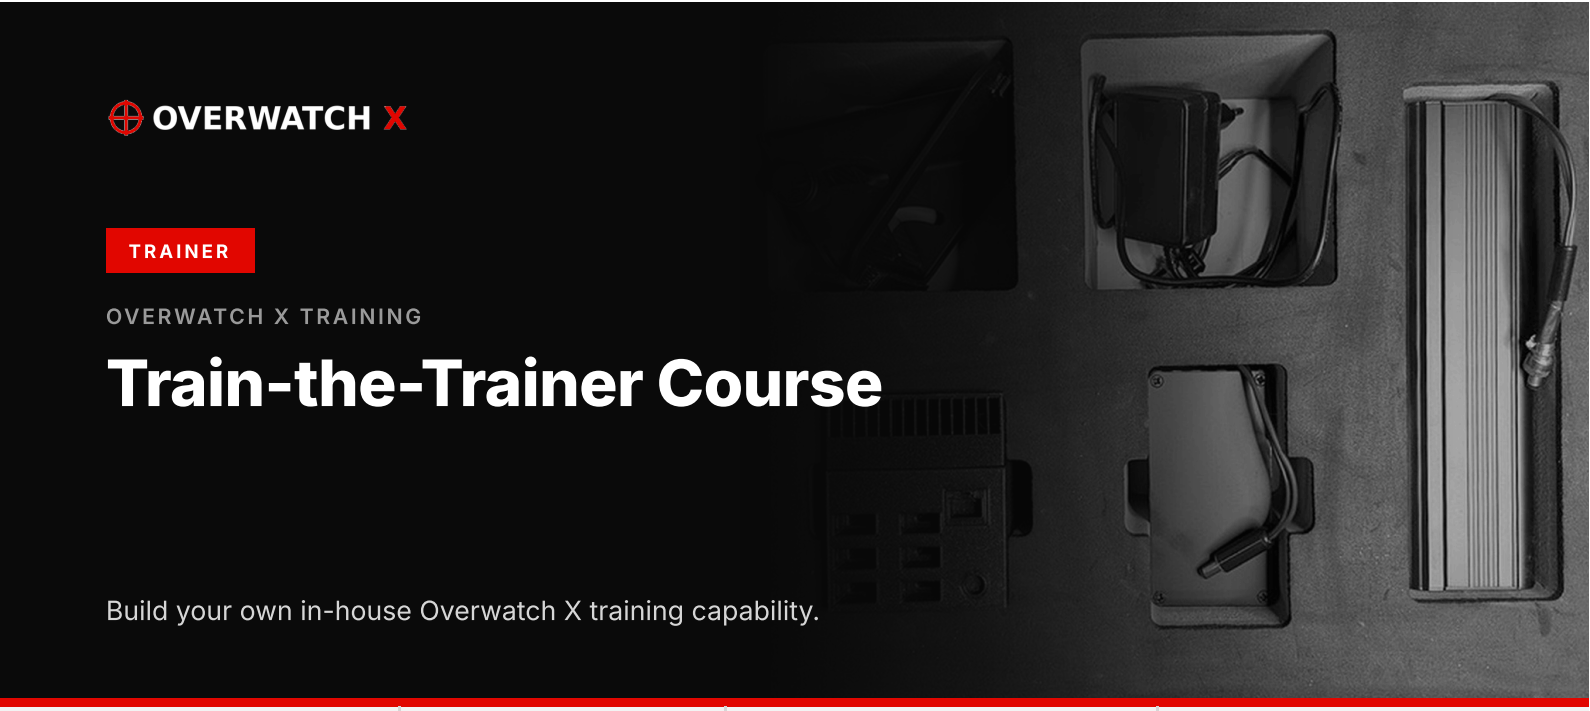
TRAINER

OVERWATCH X TRAINING

Train-the-Trainer Course



Build your own in-house Overwatch X training capability.

DURATION	GROUP SIZE	CERTIFICATION	DELIVERY
3 days	Max. 3 participants	Overwatch X Trainer (subject to assessment)	Onsite at your premises

TRAINING OBJECTIVE

Enables authorised partners and large clients to deliver Overwatch X operator training internally, to the same standard as Overwatch's own courses.

IDEAL FOR

- Authorised Overwatch partners
- Large clients with an in-house training function
- Senior operators who will train their colleagues

CERTIFICATION

Overwatch X Trainer (subject to assessment)

PROGRAMME

DAY 1
Curriculum Mastery

- Full Operator course content
- Advanced configuration and deployment
- Common faults and how to resolve them

DAY 2
Training Delivery

- Course structure and training materials
- Designing practical exercises
- Running hands-on sessions for small groups

DAY 3
Assessment

- Teach-back sessions
- Assessing participants
- Trainer evaluation

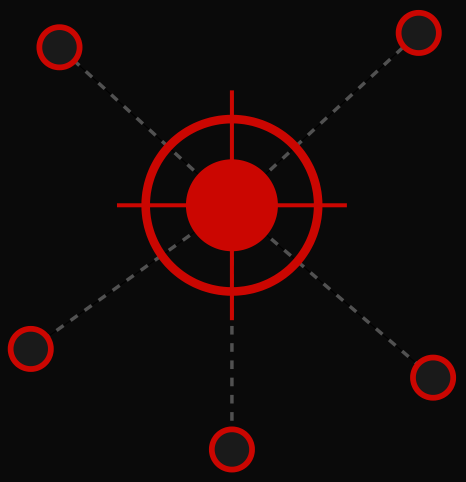
LEVEL 1	LEVEL 2	LEVEL 3	ANNUAL	TRAINER	CONTROL ROOM
Operator	Advanced	Surveillance Detection	Refresher	Train-the-Trainer	Command Platform

OVERWATCH X

CONTROL ROOM

OVERWATCH X TRAINING

Command Platform Operator Course



Validate alerts and direct field units from one central platform.

DURATION	GROUP SIZE	CERTIFICATION	DELIVERY
½ day	Max. 6 participants	Certificate of Attendance	Onsite or remote

TRAINING OBJECTIVE

Participants learn to run the Overwatch Command Platform: handling incoming alerts and alarms from all units in real time, following agreed protocols, and pushing verified targets to every field unit at once.

IDEAL FOR

- Control-room and operations-centre staff
- Team leaders who validate alerts
- Managers responsible for target lists

CERTIFICATION

Certificate of Attendance

COURSE CONTENT

MODULE 1
Platform Overview

- Units, end users and protocols
- Campaigns and missions
- Unit status at a glance

MODULE 2
Real-time Alert Handling

- Incoming alerts and alarms
- Working through protocol checklists
- Notifying end users

MODULE 3
Target Management

- Building and maintaining target lists
- Pushing targets to field units

MODULE 4
Reporting

- Campaign reports
- Archive and review
